

## CURRICULUM FOR EXCELLENCE

### *Interdisciplinary Learning: S2 Outdoor Learning*

*Physical Education, Home Economics, Personal and Social Education, Science, Geography and Outdoor Education Staff are collaborating on a joint, co-planned, co-delivered project for S2 students.*

*This is an inter-disciplinary learning project, focusing on several Curriculum for Excellence Experiences and Outcomes across a range of curriculum areas. Students learn about soil and plant sampling; how to prepare meals using Trangia stoves; develop map reading skills, team building skills and camping skills; and also to take part in several specialist activities led by staff with outdoor education expertise.*

*While the core experience is an outdoor residential experience, students are also given the opportunity to plan and review their experiences in school.*
