

CURRICULUM FOR EXCELLENCE

Interdisciplinary Learning: Profiling and Computing

Technology skills and personal responses characterise the work of the profiling Project. S1 and S2 pupils will work directly with Computing staff to create an e-portfolio in preparation for S3 profiles.

Links are established with Guidance and Support for Learning Staff to ensure that every young person is supported to do well in this endeavour. Achievement of all kinds will be gathered through (and included in the profile?) our Achievement Database.
